*Here I am marvelling at this extraordinary artwork in every way!!! The transition in colours (dark and light) which created ingenious contrast with such depth and transparent with little touch of red, and the struggle between tranquility and storm is outspoken! *"Knowing Barbara Walder long enough, I am impressed me by her geniality of being a genuine artist, not only creating outstanding and valuable artwork but also her pleasant nature. No wonder why she loves nature so much which is reflected on her sophisticated yet, simple and beautiful art. I am proud to present her art in ArtMonaco 2015 and Chester Art Fair. And wish Barbara much success on the uniqueness of her artwork. "*
